

# Ted

Patient hills of shifting grains,  
Golden dunes / buried stains –  
You belong here wondrous sphinx,  
Earth the heavens bear your links.

Mirror maker / eons evolved,  
Jigsaw puzzle not easily solved –  
Summer nests your imagery,  
Wisdom fills your treasury.

Tumultuous times baffling laughter,  
Approaching the edge forever after –  
Teens on the rise / you know why,  
Nothing more sure than your best try.

Jungle creature tender stardust,  
Cast your friendship spell on us –  
No one imagined there'd be an act three,  
How beautiful can we make it be?
