

TORI

End of summer late afternoon,
Heirloom locket honest moon,
Sapphire tiara golden ring –
She and Venus life long fling.

Hears the chattering takes no advice,
Her own analysis apple precise –
Logical firm worried some,
Never leaves until shes done.

She likes fitting the pieces together,
Disturbed dust angel feathers –
Sunflower heart watchful mind,
More than good at reading signs.

Passport suggests a timeless scene –
If benefiting others be what you mean,
You'll go through walls as open doors,
Unchain the wind we're waiting for.
