As the sun a flower tends,
From early dawn to evening's end –
Deepening Life each hour's caress,
Vein pure gold of happiness.

Careful/spontaneous/quantum imaginary,
Leadership skills/honesty legendary –
Wandering meadows/stars/sands,
Braiding garlands from clover strands.

Venus says she likes your mind,
Sparkling spirit in existential bind –
Post Holocaust epoch/Holocene time,
Where lightning and the ground entwine.

Goddess knows how consecrated,
The love you've made/quilt created –
Eternal friend so proven true,
You've always known just what to do.
