With all its wonder autumn tried,  
Seashores too and mountainsides,  
Stars moon none could guess –  
How you arrived at this address.

Energetic heart resolute will,  
Committed relationships deepening still,  
Swimming swan lines mirror lake –  
At the table rising stakes.

Macrodrاما in microtheatres,  
Concerned about it getting later –  
Teacher of lessons learned from skeletons,  
Humanity's debt exceeds gazillions.

Was that a dove cooing this morning,  
Or sister owl giving warning –  
Saturn says time we get down to it,  
Flowers modeling how to do it.
