

Crystal

From chance, choice and the interstellar,
Arrives a magical storyteller –
Reaching for places left unthought,
Delivering moments come unsought.

To the point, catalyzing roles,
Unsecret aim a Higher Love's goals –
Enduring friendships, impressions that last,
Going somewhere, sometimes fast.

Focused, spontaneous, energetic,
Dramatic, emotional, complex aesthetic –
Beyond the Anthropocene's lengthening shadow,
Invoking the Planet's longed-for tomorrow.

Ancestral roots, down to Earth views,
Creating the improbable from yesterday's news –
Befriending Nature from millennia heart broken,
As clouds and skies can suddenly break open.
