

Denzel

Snowflake sky soft falling down,
Frosted windows frozen ground –
Like other memories heaven made,
Polished granite hand carved jade.

Vein of kindness mile wide,
Always be there by your side,
Climb mountains cross rivers too –
Lay it down risk all for you.

Reliable capricious persevering genius,
Fatherly soul earning our trust,
Forgiveness redemption makes it real –
Eye on eternity times keeping sealed.

Strange magic strong heart,
The key exactly about your part –
Venus whispers Saturn too,
Curtains rising now it's up to you.
