

Gabe

Early this morning the Moon a sliver,
Until you, like the Sun, lit the river –
Electrifying insights / magnetic clarity,
Fractal stretching historic singularity.

Strong willed, nimble, definitive friend,
Intuiting the not-yet around the bend –
Guided by goals, morals, hope,
Beyond expectation, every trope.

Poetic synchronicities, help in dreams,
Your own take on what it all means –
An aim surely to give Cupid delight,
Brother who stays on through the night.

Imagine the humans altering tomorrow,
Healing the Planet, comfort where sorrow –
Walls that separated coming down,
Lion and Lamb truly bound.
