

Julie

In the sand / in the snow,
In a Moon with halo's glow –
A never again / never before,
Here to tell us something more.

In the interstice logic and myth,
Edge of words / canyon cliffs –
Endless entanglement / galactic ceiling,
River moments / suffused with feeling.

On the job always your utmost,
At home the count-on perfect host –
From unexpected Spirit sparks,
Enduring friendships in the dark.

Venus says you love difficult roles,
Strength of a goddess / dialogical goals –
As for this part, the takeaway,
A miracle / impossible some say.
