Shadows flicker cross the walls,
Sleeping/wakened/the world calls –
Out frosted windows unleashed snow,
Inside the quiet night mountains know.

LAUGHTER mystery fire entangle,
Paradise bound at an oblique angle –
Turns back the clock/the scene/the covers,
Inspiring encouraging dependable lover.

Sunlight water galactic dust,
Friend to count on/eyes to trust –
Natural dancer/wild things dear,
Picture tomorrow a sacred sphere.

how much darker need it get,
Flames rise higher/rain harder yet –
Everyone hopes you keep makin' it real,
Heaven's working its side the deal.
