Heaven guessed it was You at the door,
Same knock angels heard before –
On behalf the plants, animals, the Sea,
Wrapped expressions of modernity.

C
Cobblestone evening street lights low,
The MARAIS or wherever you'd like to go –
Could talk for hours stitch time and art,
Friendships harbor in your heart.

F
Fiery Spirit you get around,
Explored states, forests of sound –
Serious / responsible / seldom off track,
Venus believed you'd be coming back.

h
Here for the open Gardener position?
Of course you're aware Earth's condition –
The Moon vouches you're good at forgiveness,
But what about practical? For a real mess.
