**F**airytales / mosaics, stained glass,  
Drawings, candles, rainbow paths –  
Deep diving Creativity's Great River,  
Rekindling Hope / more than a glimmer.

**G**ift for sensing what could come,  
Aware the history our World's from –  
Strong on feeling / heartfelt intuition,  
Mars says on a rescue mission.

**R**evisiting myths / unraveling fables,  
In another light transcending labels –  
Pointed encounters / What-if cascades,  
Curious messenger in masquerade.

**O**ne place has non-stop flooding for days,  
Another drought / forests ablaze –  
Needless suffering beneath the surface,  
The key's in what you believe your purpose.
