

Savannah

Except out a winter's night,
Where else a spark so willful bright –
Stir the Garden shooting star,
Depths of our minds to lands afar.

Friend of She with the shining light,
Guide the dove's precarious flight –
Welcoming strangers / huddled masses,
Offering hope for the suff'ring classes.

Coming from the Heart of the Matter,
Information / wavelength gather –
As down to Earth as one can get,
Lunch dates none ever regret.

hard worker / strong / responsible,
Human integrity intuits the possible –
While your thinking, words and speech,
Saturn notes brings trust in reach.
