DESERTS wait a windswept rain,
Sand piles attend a single grain –
Allegories, metaphors, edgy charm,
Climatologists are sounding alarm.

FROM square one, a destination,
TRANSFORMATIVE goal, open invitation –
Known for gifts and lovingly giving,
Engaging every creature living.

In a World never like this again,
Political gamesmanship years on end –
Scrolling, browsing, catching headlines,
Analyzing the Culture informing our Times.

Vulnerable daredevil, full of surprises,
Unbelievably Lucky, Fate surmises –
Hoping you'll soon explain the pattern,
As you hold high a guiding lantern.
