

Taylor

RAINS orphan moon befriended,
Summer veiled fairies tended –
Emotions vulnerable mentally strong,
In a dream where you belong.

SPIRIT akin to northern lights,
Wondrous awesome electric nights –
Wise woman unafraid of strange,
Serendipitous scene of change.

PROACTIVE sister fauna lover,
Her happiness from helping others,
Hard at work for the promised day –
Where every tear is wiped away.

ODESTINY hangs on what story in mind,
Beneath unsaid between the lines –
Despite obstructions don't you quit,
Someday every piece will fit.
