

David

Sweet spring thaw here you are,
Looked for by everyone near and far,
Take us with us we want to go –
Land where milk and honey flow.

Helping others giving gifts,
Changing everything forgiving rifts –
Be it calm or stormy weather,
Living loving making it better.

Angel's heart water's mind,
Compassion wonder loving kind,
A real dreamer with something to say –
And as it happens knowing the way.

Now the key to your inner heart,
Which you might think the unbelievable part –
Life's a drama unfolding unpredictable,
You need to trust the inexplicable.
