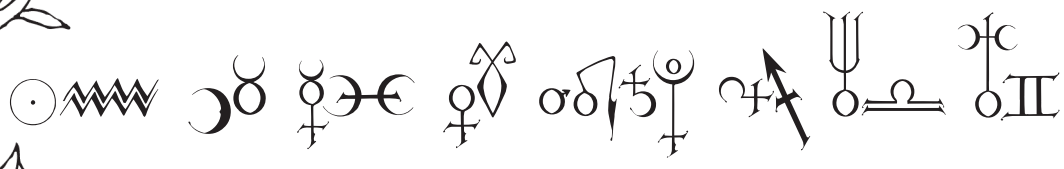
Eckhart



Winds caress the face of earth,
Spirit of change your moments birth,
Sweeping clouds prairie rains –
Compassionate minded soul unnamed.

Budding goodness service kindness,
Came here more than to remind us –
Carrying someone else's water,
Garden at root reason to bother.

Answers the call given each of us,
Tame the rapids of the Eridanus –
Breaking the rules helping others,
Love emerges from under covers.

Shanty-town hungry homesick blues,
Everyone hoping for the good news –
If you define clarify our circumstance,
Earth's children stand a chance.
