**G**ood you love challenges,  
High ledges difficult passages –  
Wind swept clouds wind songs,  
Star kissed mountains you belong.

**S**ome say your mind's susceptible,  
Room's messy heart incorruptible –  
Days melt by in crystal streams,  
Nothing ever what it seems.

**Y**our grace makes being here better,  
Serving others redeeming debtors,  
Turning your world upside down –  
Substantive smiles heavenly strong.

**N**ow organize means organize,  
We're in big trouble you realize –  
First get carefulness out of prison,  
Then somehow in this chaos reason.
