

John

Quarks spin each other's wake,
Winds quiver aspen quake –
Human dignity in heavens eyes,
Your help this mountainside.

Gift giver/unsecret visionary,
More than your own burden carry –
High ideals/reasoned explanations,
Working night shift on the bifurcation.

Oecodes coincidence/deciphers dream,
Re-thinks bones of the anthropocene –
Sky hatchling of the noosphere,
Change-maker you're needed here.

FOR worlds without a shared moral goal,
The misdirection taking its toll –
Everyone asking, "Where's it going?"
"What's the point?" / your key knowing.
