Spirit mirroring the wind at play,
Caressing grasses trees sway –
Flashing chimes / ringing bells,
Reading signs the future tells.

You're so turn it inside out,
Normalize altruism / assuage doubt –
Serving others / giving gifts,
Revolutionary insights / transformative shifts.

Bloodroot emerges / buds appear,
Seasons change dreams draw near –
Fractal / pragmatic / metaphysically kind,
Everyone everywhere their own mind.

Woodland creatures flowers call,
Troubling times large and small –
For truth and beauty perseverance needed,
A Universe un-superseded.
