That new morning come unbound,
Seas skies life turning round –
Symbiogenetic revolutionary,
Phase transition evolutionary.

Unbelievable ancient dream,
What we always wanted change to mean –
No one hungry streets of gold,
Compassion peace love foretold.

Sands clouds desert rain,
Savior of a thousand names –
Forgiveness sacrifice miracle birth,
Meek inherit the living earth.

Mythic complex ribbon dance,
Sparkling milky way second chance –
All for accepting responsibility,
For others your self our identity.
