Time to take wing oh butterfly,
Cast chrysalis one last eye –
No more closed-in wandering,
Cocoons the edge of opening.

Blue-green sea purple breeze,
Wave after wave swaying trees,
Turn of mind eternity's shore –
Never happened like this before.

Spiritual vision springtime skills,
Unexplored possibilities gifted will –
Don't look down left right back,
Earth is suffering a heart attack.

hunger shanty-towns in our face,
Love one another no better place –
Contingent your search the goals you make,
Mountains move chains break.
