

Angel

Down from forests Birch and Pine,
Where Lights dance Stars entwine –
Rad honesty / a changing wind,
The gift of time / a place to begin.

You've a Mind to sort things out,
A Heart the Planet's all about –
Endless kind / wholly responsible,
Peace a Chance / a new World Possible.

Thinking type / true Love believer,
Logical / altruistic / Vision weaver –
Beneath the boughs rivers run,
Doing what's said could never be done.

As morning to waking slowly turns,
So stark a daybreak the sky burns –
Saturn with Venus in Sagittarius suggest,
Hope watches over each hour your quest.
