Taffeta sky/magenta sun,
Love's the only way this could have begun –
Holding each other for however long,
A glimpse/an eternity/length of a song.

Snowfield drifts/night mountain air,
Inexplicable timing winter affair –
Fire from Northern Lights/water from the Styx,
Warmth kindness ingeniously mixed.

hair tangled with the ambient wind,
Kin to feathered furred and pinned –
Changing/growing/wonderland friend,
Be there with you to the end.

Breaking links in the signifier chains,
Climbing the river road/taking pains –
This one's response to the absurdity,
Knocking down walls of the ego identity.
