**M**aking paths through fresh fallen snow,  
Evergreens pines winter bent low –  
Taking turns holding back branches,  
Vows midst diamond avalanches.

**I**n love with forest winds at night,  
Adjustments / changes 'til get it right –  
Kindness celebrated / heaven framed,  
Moments with her come unnamed.

**C**hooses values / whom to serve,  
Responsibility / real nerve –  
Would our world reach those shores,  
Not one child hungry / lockless doors.

**W**ithout disguise beloved savior,  
Garden in peril becoming behavior –  
It's clarity / leadership that's needed,  
Troubling signs are going unheeded.
