

NORAH

What minded butterfly wish this,
Alive with flowers fragrant bliss –
Swaying trees / tumulting clouds,
Raising dust the not-allowed.

h eavenly messenger fear withstands,
Holding the child's trusting hand –
At teen's closed door the welcomed knock,
Revolutionary dinner table talk.

I nformed perspectives / Enlightenment sight,
Would change the world and over night –
Self-reflective Love incentive,
Altruistic / intelligent / radically inventive.

I t's your words / explanation we need,
Behalf the garden language plead –
We seem somehow to have lost our place,
In deep trouble in any the case.
