

Mavis

Add rain to sunlight / love to trust,
Sprinkle lightly with sacred stardust –
Nest spirit possibility near,
Warms hearts / dissolves fear.

Gaced with skills to start new things,
Way past men's imaginings –
Fiery minded / mother's kindness,
Better believe gets down to business.

Summer morning still wet sidewalk,
Place to go when you need to talk –
Buds not yet breaking out their shell,
Looks like the children might inherit hell.

Planet for sale / life made spectacle,
Saturn suggests what's needed is practical –
Oh, sister! how to begin,
For home and never alone again.
