

Tom

Turquoise sky opal clouds,
Milk honey wonder allowed –
Winding river pine tree knoll,
Warm gentle vulnerable soul.

Creates reality puts feeling in it,
Broken hourglass new york minute,
Amphibian months salamander days –
Lifes rhythms evolutionary ways.

Assertive vein doesn't retreat,
His kindà love strictly concrete –
Summer sun leonine moon,
Get down to business afternoon.

If this place worth a second look,
Farmlands forests mystic nooks –
Pull us from the edge of tragic,
Yours the hands can make the magic.
