

# Julian

**I**magine meeting at a coffeeshop,  
Double espressos and talk non-stop –  
A lot right now needs thinking about,  
Learning being Life's survival route.

**O**n the same wavelength, morning glow,  
Citing what Science has come to know –  
Heart Self-similar to that of the World,  
Dialogical awe and wonder swirled.

**R**evisiting the fork history took,  
Every reasoning a second look –  
From paths beginnings to how they cross,  
Rising together from suffering and loss.

**B**rotherly Spirit, wordsmith on loan,  
You like bringing the conversation home –  
The climate crisis, the nothing new,  
A Cultural rebirth way overdue.
