

# Jillette

**F**light from heaven / up from underground,  
At the windowsill the night sky's sound –  
A moment stolen from Duration's stream,  
Hand in hand out entangled dream.

**S**ensitive heart / forest mind,  
Dialogical / adaptive / cerebral kind –  
Sun and moon wed in your mirror,  
Topologically adept every sphere.

**R**eading / studying / doing your own thinking,  
Explain what's going on eyes unblinking –  
Rings at fingertips touching words,  
Talking us out of a narrative absurd.

**A**dd to your bookshelf, stories, incidents,  
Happenstance / meaningful coincidence,  
Oh and perseverance, the missing piece –  
For the world, our bonds, Love's release.
