Will

Morning meadow clover lands,
Soft waves summer sands,
Shoreline rocks piney wood –
Mother named you best she could.

Forest shaded ferns recall,
Hours your favorite waterfall –
Cherishing home loving family,
Eye for danger mind for gravity.

Venus adds a benevolent stir,
At the very heart of the matter –
Yours a growing aesthetic sense,
Impressing with the evidence.

Watery roots salvific inclinations,
Troubled times by all indications –
Change we need's the real thing,
The kind that serving others brings.
