

Anna

Wet city streets a rainy night,
Pulsing bloodstream sea of light –
Subtle enchantment charming powers,
Talk turning into loves wee hours.

Making wishes how she starts,
Scene by scene good-bye heart –
From desolation to amaze,
With pirouettes and grand jetés.

To a sprite a savior waking,
World awash in promise breaking –
Redeem us all our longstanding sins,
Where the courage this begin.

Mountain snow desert river,
Bread and wine planet quiver –
Convinced there's matters we can't see,
And where we are eternity.
