

Cass

Mothers blood spiritual bones,
Walking tidemarks shells stones –
Sky window desk edging sea,
Tears spilled cross eternity.

Purple breather water dreamt,
All a savior ever meant –
Waves of reasoning / grand jetés,
Miracle forgiveness self-healing ways.

Flower child woman power,
History's pathway omega hour –
Compassion hope Earth belong,
Clouds delight windhover's song.

Takes assertiveness turn that key,
Open the gate / create reality –
Sweet Morpho keep wiggling your wing,
The sunrise all your wishes bring.
