

Cindy

Springtime knows a lot about you,
Possibilities breaking through –
Fiery imaginary / rewriter of texts,
Unexpected what comes next.

Stretching folding galactic clever,
Passing moments taste forever –
Never easy having to wait,
Holding open paradise gate.

Intelligent / intuitive / self-confident,
Got to ask what the story meant –
From Andromeda to your first kiss,
If ever get to the bottom of this.

Caterpillar patience / butterfly speed,
Superwoman the planet needs –
Green in every conceivable shade,
Changing everything love cascade.
