**H**eaven dreamed you from the sea,  
Mind a step from eternity,  
Wishes lightning falling stars –  
Bringing us closer to who we are.

**M**edieval savior post-modern times,  
Compassionate unafraid of sublime –  
Heart and soul in the service of others,  
Who we could be for one another.

**M**ythic river slow deep bends,  
Moss shadows forest friends –  
Tear drops only part the cost,  
Making certain no ones lost.

**F**orgiving transgressions lifelong dance,  
Offering the world last second chance –  
Don't forget to smell the flowers,  
And music please for hours and hours.
