

Don

CLOUDS sun gulf coast beaches,
SAND WATER endless reaches,
WAVES breaking wind in hair –
If not heaven getting there.

FORGIVING self-sacrificing kind,
FAMILY always back of your mind –
EVERYDAY hero ten thousand faces,
QUANTUM dimensions sacred places.

NO explanation for how you know,
NOR measure all the ways you grow –
NO doubt aware the planet's state,
UNSTABLE skies the hour late.

CHAOS suffering temps on the rise,
PRETTY soon won't nothing surprise –
SAVIOR in ghostly re-arrange,
How do we love / how do we change?
