

# Elton

**W**hirled of bleeding peonies,  
Coral reef possibilities –  
Boulevard in springtime mode,  
Garden memory savior's code.

**C**hanging wind entangled clouds,  
Generating what's allowed –  
Dreams visions suppressed wishes,  
Inexplicable loaves and fishes.

**B**elieves in things only love delivers,  
Cross the south branch Styx River –  
A magic world a living sanctuary,  
Open window expanding imaginary.

**S**hadows ghosts ivory stairs,  
Maybe humans one last prayer –  
Saturn in Leo means be more clear,  
What's it look likes missing here?
