

Emeli

Glaciers melting mountain streams,
Zircon riverbed forest dreams –
Boulder strewn water ice,
Spilling down through paradise.

Mansions limousines 'leventh hour,
World gone mad over money power –
How much can each get his hands on,
Planet betray the people abandon.

She to Earth a sacred vein,
One day closer her real name –
Revisiting meanings reworking narratives,
Delivering redemption in superlatives.

Garden gatekeeper revolutionary,
Roots reaching the ancestral sea –
Crucial moment universal dance,
Human species one last chance.
