Oue west cross the prairie lands,
Day dreaming as that demands –
Interrogating narratives stories carry,
Trails of tears / the chains vary.

Wildly willful / not always subtle,
Friendship swift / compassion double –
Finding inspiration outside the lines,
Where humans fit in space and time.

Beginning late morning clouds assembled,
Wall of storm no other resembled –
Laced with lightning / day turned night,
Sorrow / stress / political plight.

Listening / open / making connections,
Believing in Love / redemption / elections –
Hoping Nightmare's end soon arrives,
Nature still smiles / the chance survives.
