Tracy

None guessed what was meant by new,
And possible 'tween we and you –
Unfolding dimensions opening doors,
Wading on forbidden shore.

When you whispered just beginning,
Not the hourglass this unending –
Curtain parts/welcome complex,
Never knowing what comes next.

Morning maker start-over ways,
Forget stained autumn yesterdays –
Gates swing wide buds burst,
Underground unrehearsed.

Garden lover sparkling sky,
From living spring that never dies –
Saturn lists among the clues,
World calling beseeching you.
