

will.i.am

Sheets of rain ghostly shades,
New rivers streets cascade,
Hooked lightning rolling thunder –
Millennial prelude now the wonder.

Always cherished the possibility,
Human love into infinity –
Utopians prayer saviors themes,
Forgiveness healing doctors dream.

Building bridges changing minds,
Expanding visions from other times –
No one hungry ne're a sleepless bed,
Holy water angels bread.

If only wishes though, nice words,
Then what could be again deferred –
Get it on really make it real,
Heaven breaks eternal seal.
