

Siouxsie

Said so well in the lyrics you wrote,
Complex connections, touching notes –
Against all odds, simply undaunted,
Holding to the Story you knew you wanted.

Cerebral Heart, practical Mind,
Bises on both sides, World redefined –
Garden memories / train passenger,
By the Stars you're a Messenger.

Always knowing just what to say,
Highly imaginative down to Earth way –
Unpretentious sisterly caring,
Intensely postmodern / surprisingly daring.

Words that gather hearts together,
Self-organizing spontaneous weather –
BTW you can see where we're headed,
Historians worry, worse is dreaded.
