

Avalon

Given the visions Time can take,
Here dusk sings to an Autumn Lake –
Later in Starlight on that same stage,
Catalyzing Humans' Coming of Age.

Infininitely more than a point of view,
Always ready for something new –
Eternity, belonging, the story's meaning,
Since burial times Humans dreaming.

Face to face, ageless wise,
In a drama, endless surprise –
Testifying for Love, living inside it,
Egalitarian Spirit, not one to hide it.

Fixing your mind on an enduring end,
Overcoming obstacles every bend –
Aware what's needed could happen here,
Delighting in bringing the Mystery near.
