In a cove nexed an unknown sea,
Filled with supernova lived galaxies,
Enchanted sunlight double swirls –
Bach in layers joyous miracles.

Says in that universe a turtle abode,
Mythic lands rocky road,
Going places never been before –
Mysteriously echoing days of yore.

Eternal questioner searching a way,
From a real mess to a better day,
Heartfelt inspired relationships –
Moments pathways candles drip.

Dependable friend rebel absurd,
Flying through meanings firebird,
Organizing was always your key –
Piecing it together meticulously.
