No explanation no schema do,
Wonder deepens closer to you –
Black holes undiscovered seas,
Alchemy of complexity.

Blood red leaves trees burning,
Metaphors crumbling heads turning,
Cool flamingos tough alligators –
Mysteriously connected microtheatres.

Charming helpful dramatic bent,
Friendships heaven surely meant –
Insights reason with feeling bring,
Deus ex machina butterfly wing.

Only autumn set this stage,
Some say verge messianic age –
When wealth power return the world,
To One Love serving others swirled.
