

# Alexandria

Veins of justice threads run deep,  
Winding night roads mountains steep –  
Brave Cordelia, eloquent/honest,  
Integrity lauds your sacred quest.

Espousing goals/compassion/reason,  
Behalf the living this anthropic season –  
Sure as there's stars you've got what's needed,  
Untangle the lines patriarchy conceded.

You hear both sides/pause and think,  
Search for answers how stories link –  
Balance the scales what gives >< who takes,  
Judge the message history makes.

On point at meetings or hosting soirées,  
Present/confident/know just what to say –  
We long to learn the world you envision,  
Unheard of as the Apollo mission.
