Out there on the edge of time,
What is it weighs on your mind –
Quiet wonder knowing eyes,
Awesome comet crossing skies.

You the witness breaks the case,
Seen the tears rolling down our face –
Honest about what's just and fair,
Living intelligence loving care.

Here to put the pieces in place,
New earth heaven reality space,
Peace and harmony world around –
Braided roses for your crown.

Saturn in Leo calls for leadership,
Give us a vision define the trip –
Sometimes its about heart of gold,
Mostly Leos just can't be told.
