Picture the water evening still,
Kitchen done / deck a moment tranquil –
Though on the horizon night's coming tracks,
Chain lightning sky in cracks.

Way more mysterious than any algorithm,
Honest / generous / worried perfectionism –
Feelingful mind / caring Soul,
Speaking part the Living Whole.

Lover of justice / partner devout,
Egalitarian inside and out –
Nuanced / complex / electrified,
Deeply coded / light years eyed.

Improbable as Northern Lights,
Winter butterflies / quasar sights –
For the future to be so good / fair / sweet,
Your key is making it concrete.
