Among narratives gathering dust,  
Help wanted someone to trust –  
Compassionate in complex judgment,  
Radically honest justly intelligent.

Always believed in several sides,  
Feeling the story's ebbs and tides,  
Thought processes including magical –  
Asterisk to allegorical.

Want ad fit him as from above,  
At his best representing the dove,  
Accents patterns dramatic speech –  
Autumn soul spring in reach.

Lets hope practical also applies,  
More than times got wings and flies –  
Earth's children big trouble,  
Look the lightning hear the rumble.
