Nearby ringing autumn's chimes,  
Trees fields turning times –  
Inside the stillness beloved's glance,  
Peace at last/the world a chance.

Long the bend your moral arc,  
Higher love/matter's dark –  
Breaking chains/making it through,  
Linguistically skilled/honest/true.

Eye for equality/fairness/discretion,  
Enchanting presence/intercession –  
Mars gave strength/Venus alchemy,  
Non-stop breaking symmetry.

Then comes this night's city scape,  
In need of magic/the hour late –  
Are you sure/cross your heart,  
Do you really want the part?
