

Mya

MORE than once she's defied never,
MAKING sense this human endeavor –
NATURE needing no apology,
Angel in some other mythology.

READS stories studies facts,
LEARNED to recognize follow tracks,
AWARE our condition the delicate balance –
Spun from microtheatrical circumstance.

THREADS the needle very first try,
COVENANT maker from the sky –
Honest poised assertive upright,
Enchanting smile fanciful flights.

CONCLUSION reached with carefulness,
She can clean up this manmade mess –
If patient of course and organized,
Lessons long ago realized.
